

ALOK TOMAR

Full-Stack Developer · React · Node.js/Express · JavaScript · REST APIs · 9+ Years

aloktomar.dev@gmail.com 8272831603 Dehradun, Uttarakhand, India

PROFESSIONAL SUMMARY

Full-Stack Developer with 9+ years of experience designing, building, and maintaining end-to-end web applications across both frontend and backend layers. Proficient in HTML5, CSS3, and JavaScript (ES6+); experienced with React.js for building responsive, accessible, and high-performance component-based UIs. Primary backend experience with Node.js and Express.js for developing RESTful APIs and server-side integrations; additionally familiar with Python and Django for backend service development and automation tasks. Comfortable working with both relational (MySQL, PostgreSQL) and NoSQL (MongoDB) databases. Skilled in Git-based workflows, Agile/Scrum methodologies, and Jira-based sprint tracking. Strong track record of collaborating with cross-functional teams to deliver scalable, maintainable, and user-centered web solutions.

EXPERIENCE

Full-Stack Developer · Apexure India · Remote Sep 2024 – Present

- Designed and developed end-to-end web applications across frontend and backend layers, delivering scalable and maintainable solutions aligned with business requirements
- Built responsive, accessible frontend interfaces using HTML5, CSS3, JavaScript (ES6+), and React.js — ensuring WCAG compliance and cross-browser compatibility
- Developed RESTful APIs and backend services using Node.js and Express.js for third-party integrations including CRMs, payment gateways, and marketing automation tools
- Designed and managed server-side routing, middleware, and API endpoint logic using Express.js within a Node.js runtime environment
- Collaborated with UX/UI designers and product stakeholders to implement user-centered features from Figma mockups to production
- Participated in Agile workflows including sprint planning, daily standups, and Jira-based task tracking for timely delivery
- Optimized applications for Core Web Vitals, page speed, SEO, and accessibility — improving performance metrics across client projects
- Integrated cloud-based services and third-party APIs, applying scalable architecture principles to support production workloads
- Explored Python and Django for backend scripting, automation workflows, and RESTful API development — broadening backend capability alongside Node.js
- Leveraged AI-assisted development tools to accelerate code generation, debugging, and documentation workflows

Full-Stack Developer · MounTech Solutions · Remote Oct 2020 – Sep 2024

- Developed and maintained full-stack web applications for diverse clients, handling both frontend interfaces and backend service integrations
- Built responsive, pixel-perfect UIs using HTML5, CSS3, SASS, Bootstrap, CSS Grid, and JavaScript — collaborating directly with design teams
- Developed React.js component-based interfaces for dynamic, high-performance web applications on select projects
- Designed and integrated RESTful APIs connecting frontend applications with backend services and third-party platforms (payment gateways, CRM tools)
- Worked with relational databases (MySQL) for data modeling, schema design, and query optimization
- Implemented Git-based version control workflows supporting team collaboration, code reviews, and CI/CD-ready branch management
- Managed tasks, sprints, and release tracking using Jira in Agile team environments with cross-functional stakeholders
- Translated Figma and PSD designs into fully functional web interfaces with attention to detail, responsiveness, and performance
- Maintained clear technical documentation and code comments to support team onboarding and system maintainability

Frontend Developer · Apexure · Freelance Oct 2019 – Oct 2020

- Delivered full-stack web projects independently, managing frontend development, backend integrations, and client communication end-to-end
- Built and maintained web applications using HTML5, CSS3, JavaScript, PHP, and MySQL with a focus on responsiveness and performance

- Applied Agile-style self-management for project scoping, sprint-like task prioritization, and timely delivery

Frontend Web Developer · Built by Blank

Jan 2017 – Oct 2019

- Developed responsive, cross-browser-compatible web interfaces using HTML5, CSS3, and JavaScript with a focus on clean code and scalability
- Translated Figma and PSD design mockups into fully functional, pixel-perfect web interfaces
- Built dynamic websites focused on cross-browser compatibility, mobile responsiveness, and modern software design principles
- Used browser debugging tools (Chrome DevTools) for testing, QA, and performance profiling

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js (Intermediate), jQuery, SASS, Bootstrap, CSS Grid, Responsive Design, Accessibility (WCAG)

Backend: Node.js (Primary), Express.js, PHP, RESTful APIs (JSON/XML), npm, Middleware Design, Server-Side Routing, Third-Party API Integrations

Also Familiar: Python, Django, Django REST Framework — backend scripting, automation tasks, and API development

Databases: MySQL, PostgreSQL, MongoDB (NoSQL), Schema Design, Query Optimization, ORM/ODM basics

DevOps & Tools: Git, GitHub, CI/CD Workflows, Jira, Agile/Scrum, Sprint Planning, VS Code, Figma, Chrome DevTools

Cloud & Platforms: AWS (Familiar), Azure (Familiar), WordPress, Shopify, Webflow, Kajabi, GoHighLevel (GHL), WP Engine

Performance: Core Web Vitals, Page Speed Optimization, SEO, Web Accessibility, Cross-Browser Compatibility

AI Tools: Claude, ChatGPT, Cursor — used to accelerate development, code review, and documentation

EDUCATION

MCA – Master of Computer Applications · SGRR Institute of Technology & Science, Dehradun

2014

BSc (IT) – Bachelor of Science in Information Technology · ITM College, Dehradun

2011

12th – Intermediate · Hindu National Inter College, Dehradun

2008

10th – High School · Hindu National Inter College, Dehradun

2006
