

ALOK TOMAR

Frontend Developer · React.js · Redux Toolkit · Tailwind CSS · JavaScript (ES6+) · 9+ Years

aloktomar.dev@gmail.com 8272831603 Dehradun, Uttarakhand, India

PROFESSIONAL SUMMARY

Frontend Developer with 9+ years of experience building scalable, high-performance, and user-friendly web applications. Deep expertise in React.js — functional components, custom hooks, Redux Toolkit and Context API for state management, and REST API integration with async/await and Axios. Proficient in HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, Bootstrap, Material UI (MUI), and SASS. Strong focus on translating Figma designs and wireframes into responsive, pixel-perfect interfaces with excellent cross-browser compatibility. Familiar with TypeScript and Next.js. Strong problem-solving and analytical skills with experience in Agile workflows, Git, and npm/yarn-based development pipelines.

EXPERIENCE

Senior Frontend Developer · Apexure India · Remote

Sep 2024 – Present

- Designed, developed, and maintained scalable frontend applications using React.js — functional components, custom hooks, and Redux Toolkit for predictable global state management
- Built responsive, user-friendly interfaces from Figma designs and wireframes using Tailwind CSS, Material UI (MUI), Bootstrap, and CSS Grid with pixel-perfect accuracy
- Integrated RESTful APIs and managed application state effectively using Axios, async/await, useEffect, and error boundaries for robust asynchronous data handling
- Optimised applications for performance, scalability, and cross-browser compatibility — consistently achieving 90+ Lighthouse scores through code splitting and lazy loading
- Implemented React Context API alongside Redux Toolkit for lightweight and complex state management scenarios across different project scales
- Collaborated with designers, backend developers, and product teams to deliver high-quality, user-centered solutions on time
- Applied SEO basics — semantic HTML, meta tags, page speed optimisation — to improve search visibility across client projects
- Participated in Agile ceremonies — sprint planning, standups, retrospectives — and managed tasks through Jira for on-time delivery

Senior Frontend Developer · MounTech Solutions · Remote

Oct 2020 – Sep 2024

- Led frontend development of multiple client-facing web applications using React.js, building modular component systems consumed across projects
- Managed application state across complex UI flows using React Context API and Redux Toolkit, improving data consistency and reducing prop-drilling
- Implemented React Router for multi-page SPA navigation including protected routes, dynamic route params, and programmatic navigation
- Built responsive, pixel-perfect layouts using HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI (MUI), and CSS Grid — translating Figma and PSD designs with high fidelity
- Integrated third-party REST APIs within React applications using Axios and async/await — payment gateways, CRM tools, and marketing platforms — with robust error handling and loading states
- Enforced code quality through peer code reviews, consistent naming conventions, and component documentation within Git-based workflows
- Managed sprint tasks, bug tracking, and feature releases using Jira in a collaborative Agile team environment
- Improved cross-browser compatibility and mobile responsiveness across all deliverables, tested on Chrome, Firefox, Safari, and Edge
- Maintained clear frontend architecture documentation to support onboarding and long-term maintainability

Frontend Developer · Apexure · Freelance

Oct 2019 – Oct 2020

- Independently delivered frontend web projects end-to-end — from scoping and design review to production deployment and client handoff
- Built component-driven UIs using React.js and JavaScript, with a strong focus on responsiveness, performance, and browser compatibility
- Managed client communication, iterative feedback cycles, and delivery timelines in an Agile-style self-managed workflow

- Developed responsive, cross-browser-compatible web interfaces using HTML5, CSS3, and JavaScript with a focus on clean, maintainable code
- Translated Figma and PSD design mockups into pixel-perfect functional interfaces across desktop, tablet, and mobile breakpoints
- Established frontend coding standards and reusable CSS patterns that improved consistency across multi-developer projects
- Used Chrome DevTools for debugging, performance profiling, and layout inspection across all major browsers

TECHNICAL SKILLS

React.js: Functional Components, Custom Hooks, Redux Toolkit, Context API, React Router, React.memo, useMemo, useCallback, React.lazy, Suspense, Error Boundaries, JSX

JavaScript: ES6+, Async/Await, Promises, Fetch API, Axios, Asynchronous Programming, DOM Manipulation, Modules, Destructuring, Spread/Rest

HTML & CSS: HTML5 (Semantic), CSS3, Tailwind CSS, Material UI (MUI), Bootstrap, SASS/SCSS, CSS Grid, Flexbox, Responsive Design, BEM

Also Familiar: TypeScript, Next.js, Vite — actively learning and applying on current projects

API & State: RESTful APIs, Axios, Fetch, Async State Management, Redux Toolkit (createSlice, createAsyncThunk), Third-Party Integrations

Performance & SEO: Core Web Vitals, Lighthouse, Code Splitting, Lazy Loading, Page Speed, SEO Basics, WCAG 2.1 Accessibility

Tools & Workflow: Git, GitHub, npm/yarn, Jira, Agile/Scrum, VS Code, Figma, Chrome DevTools, Modern Development Workflows

EDUCATION

MCA – Master of Computer Applications · SGRR Institute of Technology & Science, Dehradun	2014
BSc (IT) – Bachelor of Science in Information Technology · ITM College, Dehradun	2011
12th – Intermediate · Hindu National Inter College, Dehradun	2008
10th – High School · Hindu National Inter College, Dehradun	2006
