

ALOK TOMAR

Front-end Developer · React.js · JavaScript · HTML/CSS · 9+ Years

aloktomar.dev@gmail.com | 8272831603 | Dehradun, Uttarakhand, India | Open to Remote

PROFESSIONAL SUMMARY

Front-end Developer with 9+ years of experience building responsive, high-performance web and mobile interfaces. Deep expertise in React.js including component architecture, state management (Redux, Context API), and DOM manipulation. Proficient in JavaScript (ES6+), HTML5, CSS3, and SVG-based UI development. Proven track record converting wireframes and design mockups into intuitive, pixel-perfect user interfaces. Experienced with RESTful API integrations, CDN and caching-driven performance optimization, and building scalable front-end component libraries. Actively participates in design and code reviews to maintain engineering quality.

EXPERIENCE

Sr. Front-end Developer · Apexure India · Remote

Sep 2024 – Present

- Built and maintained reusable React.js component libraries and front-end module systems consumed across multiple projects
- Converted UI wireframes and Figma designs into pixel-perfect, intuitive React interfaces with responsive layouts
- Implemented state management solutions using React Context API and Redux for complex, data-driven application states
- Worked extensively with SVGs — inline SVG animations, icon systems, and dynamic SVG manipulation via JavaScript
- Optimized front-end performance using CDN strategies, HTTP caching, lazy loading, and code splitting — achieving significant Core Web Vitals improvements
- Integrated RESTful APIs to build dynamic, data-driven UIs with clean separation of concerns
- Actively participated in architecture discussions, design reviews, and code reviews to uphold quality standards
- Leveraged AI tools (Claude, Cursor, ChatGPT) to accelerate development and reduce project delivery time

Front-end Developer · MounTech Solutions · Remote

Oct 2020 – Sep 2024

- Built React.js applications with reusable component architecture across diverse client projects
- Implemented state management using Context API and Redux to handle complex UI interaction flows
- Performed direct DOM manipulation using JavaScript object model for dynamic, interactive experiences
- Developed and integrated SVG-based graphics, icon sets, and animations for enhanced visual interfaces
- Translated Figma/PSD mockups into fully functional, cross-browser-compatible web interfaces
- Integrated third-party RESTful APIs — CRMs, payment gateways, and marketing platforms — into front-end layers
- Implemented responsive designs using HTML5, CSS3, SASS, Bootstrap, and CSS Grid for web and mobile experiences
- Applied performance optimization techniques including CDN configuration, browser caching, and image optimization

Front-end Developer · Apexure · Freelance

Oct 2019 – Oct 2020

- Delivered responsive web interfaces for client projects with a focus on React.js component development
- Consumed RESTful APIs to build dynamic, data-driven web experiences end-to-end
- Developed custom UI components and landing pages optimised for performance and responsiveness
- Managed client communication, project scoping, and end-to-end delivery independently

Frontend Web Developer · Built by Blank

Jan 2017 – Oct 2019

- Translated Figma/PSD designs into responsive, pixel-perfect interfaces using HTML5, CSS3, and JavaScript
- Built interactive UI features with JavaScript DOM manipulation and event-driven programming
- Developed reusable UI components and frontend modules for scalable, maintainable web projects
- Ensured cross-browser compatibility and mobile responsiveness across all delivered interfaces

- Used Chrome DevTools and Firebug for debugging, testing, and performance profiling

TECHNICAL SKILLS

React.js: Component Architecture, React Hooks, State Management (Redux, Context API), React Router, JSX, Reusable Component Libraries

JavaScript: ES6+, DOM Manipulation, JavaScript Object Model, Async/Await, Promises, Event Handling

HTML / CSS: HTML5, CSS3, SASS/SCSS, CSS Grid, Flexbox, Bootstrap, Responsive & Mobile-First Design

SVG: Inline SVG, Dynamic SVG Manipulation, SVG Animations, Icon Systems

APIs: RESTful APIs (JSON/XML), 3rd Party Integrations, Fetch / Axios

Performance: CDN, Browser Caching, Lazy Loading, Code Splitting, Core Web Vitals, Page Speed Optimization

Tools: Git, Figma, Chrome DevTools, VS Code, AI Tools (Claude, ChatGPT, Cursor)

Also: WordPress, Shopify (Liquid), Webflow, PHP, MySQL, WooCommerce

EDUCATION

MCA – Master of Computer Applications · *SGRR Institute of Technology & Science, Dehradun* · 2014

BSc (IT) – Bachelor of Science in Information Technology · *ITM College, Dehradun* · 2011

12th – Intermediate · *Hindu National Inter College, Dehradun* · 2008

10th – High School · *Hindu National Inter College, Dehradun* · 2006
